Itinerary

For 2010 we are delighted to return for a fifth year to the luxurious and wonderfully relaxing Wold Cottage near to Wold Newton, that has rightly proved so popular over the last four years. This splendid venue allows us to combine the very best of our North Yorkshire holidays of recent years with newer destinations further East. Our home for the week is surrounded by the lovely and deserted lanes of The Wolds, well off the tourist track, and, we will explore these and the wonderful views that they afford, liberally!

Our itinerary for this holiday hopes to include: The Yorkshire Wolds foremost stately home of Sledmere House and Gardens. Burton Agnes Hall, a magnificent example of Elizabethan architecture, with a simply lovely walled garden. The outstanding grandeur of Beverley Minster. The unspoiled charming Regency seaside resort of Filey, the spectacular views from the

magnificent Bempton Cliffs, home to England's largest seabird colony, and a stop at famed Flamborough Head, one of the most impressive areas of chalk cliffs in Britain. The ever popular small market town of Helmsley. Pickering with its superb church featuring the most extensive mediaeval wall paintings in

Flamborough Head

Britain and also the amazing Beck Isle Museum. We will also see the picturesque beck-side village of Thornton-le-Dale. Plenty of the rugged glory of the North Yorkshire Moors, including a visit to the Danby Lodge Visitor-Centre, and of the gentler rural

remarkable 'suburban' gardens you will ever see and Hunmanby Grange, high in the Wolds, with its chalk soil and exposure to wind offering challenges that featured on 'Gardeners World'. We will visit churches on the 'Sykes Trail' at Fridaythorpe, Kirkburn and Garton-on-the-Wolds with its unique complete cycle of Victorian wall paintings depicting scenes from the Creation to the Last Judgement; also the 'hidden' 11th century Minster Church at Ellerburn. Other visits will take us to Burnby Hall Gardens at Pocklington with its National Water Lily Collection and to see the tallest standing stone in Britain at Rudston!
